

UPCOMING EVENTS

1-7-18

Guest Speaker Shahram Hadian

**Wednesday, January 17th – Dinner at 6pm followed
with a Presentation from Shahram**

“Islam’s Incompatibility with the U.S. Constitution”

Shahram Hadian travels around the nation speaking on critical issues facing us as Americans. Two things have become abundantly clear to Hadian - people are tired of political correctness, and people are ready to hear the truth. This reality demonstrates the need for courageous leaders in all spheres of our society, particularly within our government, who are willing to speak the truth and stand for our foundational principles.

Here at Candlelight – Special Guest - Jake MacAulay
Sunday, January 21st – Both Services

Jake serves as the Chief Executive Officer of the Institute on the Constitution (IOTC), an educational outreach that presents the founders’ “American View” of law and government. IOTC has produced thousands of graduates in all 50 states with a full understanding of the Biblical principles on which America’s founding documents are based. Jake is an ordained minister and has spoken to audiences nation-wide, and has established the American Club, a constitutional study group in public and private schools. He has been seen on Yahoo News, Fox News, The Blaze, AP, CBS, NBC, The Weekly Standard, and more. Don’t miss his special presentation on January 21st at Candlelight!

January 7th: Evidence for the Bible – Ten Reasons you can trust the Scriptures – Charlie Campbell. Was the Bible written by deceitful men? Is the Bible out-of-sync with scientific discoveries? Has the Bible undergone corruption as it was translated down through the centuries? Are the persons, places and events mentioned in the Bible mythological? What sets the Bible apart from other religious writings like the Quran, Hindu Vedas, or Book of Mormon? Charlie Campbell has been researching answers to questions like these for more than twenty years. In his third edition DVD, he answers these questions as he builds a compelling ten-pronged case for the trustworthiness of the Bible.

January 14th & 21st: The Bible's Scientific Accuracy – Charlie Campbell

Has the Bible been disproved by scientific discoveries? Is the Bible hopelessly out-of-date? Critics of Christianity say YES. But the evidence says NO. Charlie Campbell lays out a case for the scientific accuracy of the Bible by looking at several ancient revelations in the Bible that revealed amazing facts about the Earth and the universe thousands of years before the invention of telescopes, satellites, deep-diving submarines, and all the other technology that finally allowed scientists in the last century or two to verify these revelations were correct!
