February 11th & 18th - Archaeological Evidence for the Bible: Is the Bible a collection of fables and myths? Are the persons, places, and events in the Bible just fabrications by deceitful men? Many critics of Christianity think so, but archaeological discoveries show otherwise. Over the past two centuries, archaeologists have made thousands of discoveries that have helped to verify the exact truthfulness of the Bible's detailed records of various events, customs, persons, cities, nations, and geographical locations. This DVD series by Charlie Campbell will introduce you to several of these fascinating Bible-affirming finds, both old and new.
