(Today's Guest Speaker)

### **IRAN IN BIBLE PROPHECY**

### **LESSONS FOR AMERICA & THE CHURCH**

Iran is in the news everyday yet much of the world remains silent on the recent massacres that took place (and the past 47 years) and ignorant about the Persian culture and history. What is most revealing is the silence in the church. All of the "free Palestine, "Israel is evil," and "Israel is committing genocide" Replacement/Covenantal Theology professing Believers are now nowhere to be found. In this message Shahram will discuss the current Middle East drama, explore Iran's Biblical history and reveal the connections to God's plan for Israel and Bible prophecy. Shahram

will also expose life living in Iran under an Islamic theocracy (especially for the underground persecuted believers) and what the future holds if western society does not stop the Islamic takeover of Europe and the U.S.

Will America and Christians wake up in time to learn from what is happening in Iran and recognize the existential threat that Islam poses to us and our freedoms? Will believers be a voice for the liberation of the Iranian people and for Bible prophecy that is being fulfilled right before our eyes. We are living in the last days and are getting closer to seeing Christ's return for His bride and His coming Kingdom on earth!
